

The Most Current Title 49 Regulations Available

TradeCompliance^{plus} subscriptions keep you current all year:

- Print versions of the regulations
- Email Update Alerts on new or changed regulations
- Web posting of changes and the complete regulations — available 24/7.

You receive the full text of the regulations, 49 CFR Parts 100-185, covering the classification, marking, labeling, packaging, and documenting a dangerous goods shipment as prescribed by the U.S. Department of Transportation. It includes an updated and easy-to-read Table of Hazardous Materials & Special Provisions

(§172.101) and provides essential guidance on classifying your goods and how to pack, label and document them. Your set of regulations will cover all requirements for shipments via truck, rail, air and ocean. Updates up to 4 times a year.

This is a must-have reference for any organization involved with dangerous goods transportation. The combined print and electronic subscription will ensure that you have the latest regulations for a full year.

1048 pages, Tabbed Dividers, Full text on the Web, E-mail Updates

TRAINING for Dangerous Goods Transportation

Multimodal Dangerous Goods Transportation Learn to take the risk out of hazmat transport — DOT fines up to \$27,500 per day with single shipment fines exceeding \$75,000. Expanded DOT regulations demand documented training for every hazmat employee in your company, including “pre-transport” handlers. Train now for increased safety and to avoid fines and civil/criminal liability. 2 days.

Shipping Dangerous Goods by Air Recurrent Training IATA stipulates that recurrent training must occur at least every 24 months. Unz & Co. training will satisfy this requirement and also equip you to prepare shipments that are fully compliant with all regulations. 1 day.

IATA 2-Day Basic Initial Air Workshop Acquire the regulatory skills needed to document, classify, prepare, offer and accept, shipments of dangerous goods for air transport. Also included are 49 CFR ground transportation requirements. Comprehensive and intensive! 2 days.

Dangerous Goods Declarations Software Version 4.1

Our dangerous goods declaration software includes current versions of:

- IATA Dangerous Goods declaration
- IATA Non-Restricted declaration
- IMO Multimodal Dangerous Goods form
- IMO Dangerous Goods declaration

Dangerous Goods Declarations Software Version 4.1 contains the latest IMO IMDG changes to both the Multimodal Dangerous Goods Form and the Dangerous Goods Declaration. These changes amend the sequence of the dangerous goods description for both documents.

Complete and save your dangerous goods documents the easy way.

The IMO IMDG changes are mandatory as of January 1, 2008!

ORDER FORM

Dangerous Goods Regulations

Hazmat 49 CFR Parts 100-185

For all modes of dangerous goods transport

Current as of the annual update November update.

This is the most comprehensive and easy-to-use compilation of 49 CFR Parts 100-185 (the U.S. Hazardous Materials Regulations).

If you are a shipper of hazardous materials, this is a publication that you cannot be without. It is absolutely necessary for applying and complying with the U.S. regulatory requirements for packing, marking, labeling, documenting, and stowing hazardous materials in all modes of transport.

This comprehensive and easy to use compilation of 49 CFR Parts 100-185 (the U.S. Hazardous Materials Regulations) is the critical resource in your compliance program. Understanding and then properly applying the regulatory requirements for hazmat shipments can be difficult and confusing. This publication from Unz & Co. will ease that process. In addition to the full and complete text of the U.S. hazmat regulations, this publication provides reader's aids through notes and illustrations. Sample checklists are provided to assist users with shipping paper preparation, placarding, labeling and marking requirements. Regulations that have changed since the prior printing of the volume are highlighted in color — making it fast and easy to find and comply with the latest regulations.

2008 Emergency Response Guidebook available soon!

The 2008 ERG is expected in early 2008. Pre-order your copy now to be sure you will be current with the regulations as they are published. There will be no charges until the reference ships.

The most current ERG can help you comply with DOT's requirement that hazardous materials shipments be accompanied by emergency response information (49 CFR 172.602).

Featuring a comprehensive index and reader-friendly color coding, the DOT Emergency Response Guidebook helps emergency responders find vital information quickly. It's

also a great tool for use in emergency preparedness, planning, and training.

Just a few of the updates included are:

- Isolation and protective action distances.
- More comprehensive white pages.
- Illustrations and general information on pipelines — markers/signage and common sense indicators of pipeline leaks.
- Material names and identification numbers

Air Shippers

2008 IATA Dangerous Goods Regulations

49th Ed.

Essential for shipping dangerous goods by air.

The IATA Dangerous Goods Regulations (DGR) guide is the trusted source to help you classify, mark, pack, label and document dangerous shipments, based on international and national air regulations as well as airline-specific requirements. Recognized by the world's airlines for 50 years.

Featuring a new Appendix for more efficient use, plus other changes:

The key addition to the 49th edition is a new Appendix. It is expanded and more user-friendly than in past years, making it easier and faster to navigate the regulations — and it makes your job easier.

This appendix will clearly state the changes that will take effect as of January 1, 2009 with the publication of the next edition of the ICAO Technical Instructions. These changes include:

- Revisions to the list of dangerous goods based on the new UN numbers.
- Significant amendments and additions to the special provisions;
- New and revised packing instructions;
- New provisions for DG in excepted quantity.

Ocean Shippers

International Maritime Dangerous Goods

Amendment 33-06 (IMDG)

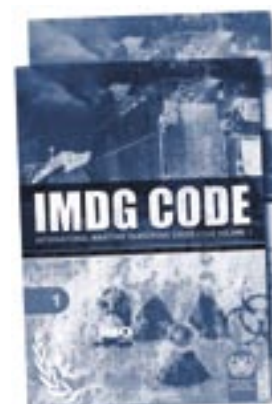

Do you ship dangerous goods by sea?

Then you'll want to have the latest IMDG code. It provides details on the requirements applicable to each individual substance, material or article. The IMO Maritime Safety Committee (MSC) is authorized by the Organization's Assembly to adopt amendments to the Code, thus enabling IMO to respond promptly to developments in transport. **Cat. No. R65-642 \$265**

IMDG supplement R65-642S \$145

The 33rd Amendment was authorized January 2007 – Mandatory January 1, 2008
